# II. FY2021 Full Year Plan

# FY2021 Full Year Plan

### Outlook

## **■** Outlook for the macro environment

- Thanks to vigorous demands for housing and civil infrastructure investment and high level of grain prices, demands will continue to expand in construction and agricultural sectors mainly in the U.S. and Europe
- On the other hand, the outlook remains uncertain due to rising material prices and logistics costs, the impact of semiconductor shortages on production and subsequent longer lead-time of shipping/sales, and rising concerns over the spread of new variants of COVID-19 mainly in Southeast Asia

#### Outlook for each Business

#### **Positioning**

- Strong trend will continue in the U.S. and Europe construction markets while automation needs are increasing due to the shortage of construction labor force
- Farmers' strong appetite for capital investment will continue thanks to high level of grain prices

# Smart Infrastructure

- Favorable trend will continue due to National resilience program and numbers of i-Construction works are expected to grow
- In terms of IT agriculture, the demands reactionary decline due to termination of the subsidies, however, uptrend of adoption of automation technologies will continue thanks to persistent labor-saving needs
- Southeast Asia will continue to suffer from prolonged COVID-19 pandemic and the timing of recovery remains uncertain

#### **Eye Care**

- Demands for screening business in the U.S. and Europe is expected to expand steadily
- There is certain growth prospects in China while the economic outlook is somewhat uncertain
- Southeast Asia will continue to suffer from prolonged COVID-19 pandemic and the timing of recovery remains uncertain
